## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1, 3, 6-9, and 12-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Nolte (DE 3536285 C1) in view of Connel et al. (USPN 3,788,148).

Nolte discloses upper and lower column assembly, central collapsible steering shaft 4 first tube 2 that is slidably mounted in a bore of a second tube 1 and that rotatably supports said central collapsible steering shaft at a lower end of said first tube first and second bearings rotatably supporting the shaft in each the first and second tube;

assembly is rake and reach adjustable.

Nolte does not show the tube is made of a thermoplastics material.

Connel et al. show a collapsible steering column with central bearing (40) made of a thermoplastic material (see column 4, lines 26-32).

It would have been obvious to one of ordinary skill in the art at the time of the invention to modify the bearing apparatus of Nolte with a plastic or thermoplastics material for the purpose of reducing friction in the bearing.

3. Claims 4, 5, 10, and 11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Nolte.

Nolte disclose all of the instantly claimed invention, except, the central bearing is a molded glass fiber-filled thermoplastics tube or a molded carbon-fiber-filler thermoplastics tube.

It would have been obvious to one having ordinary skill in the art at the time of the invention was made to use molded glass fiber-filled thermoplastics or molded carbon-fiber-filler thermoplastics to form the bearing tube, since it has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use.

***Response to Arguments***

4. Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
